

AN ULTIMATUM TO THE UNITED KINGDOM
Washington D.C.

A JOINT-ULTIMATUM
by the United States & Zimbabwe

I, Bernard Caldwell, President of the United States of America, and Commander-in-Chief of the Army, Air Force and Navy, and its' organized militias, thereof, do hereby proclaim and declare that hereafter, as heretofore, the war will be prosecuted against the rogue United Kingdom of Great Britain & Ireland should they not accept our reasonable demands as laid below.

As the United Kingdom continues to pull this narrative, along with its client states, that the United States of America will not stand up for its citizens, then it is incredibly wrong. Throughout the week, the United Kingdom feels that it has taken a "win" as we have retracted our prior ultimatum due our demands being met in a high capacity, as Finley was exiled and excommunicated from the Discords, and respective groups, however we will not forget that fact that the United Kingdom continues to diplomatically insult our government, and our people, continues to dish out threats and their attitude of asinine dislike from the UK. The United States has still continued to find a diplomatic resolution however, as before, have still been ignored, and the Prime Minister has failed to agree to our demands of cooperation. It is for that reason that the United States is forced to issue an ultimatum, for a final time, to the United Kingdom and its government, in a final attempt at seeking a final solution that works for both parties. Previously, the United Kingdom added us in a group chat to sue for peace, however the United States will no longer fall into this "trap of peace", and will no longer agree to any diplomatic solution with the United Kingdom whatsoever, making no concessions.

Should the rogue Government of the United Kingdom not accept, adhere, and comply with our demands a state of war will exist between the United States of America & the United Kingdom at Friday, 7th August, 12AM British Summer Time

- A full and unequivocal apology worth at least 30 words issued to the United States, its citizens and government by Prime Minister Phentemjerker for constantly undermining the Government of the United States led by President Bernard Caldwell and the Leader of the Yada Clan for constantly vetoing the resolutions to unban Mozambique & Zimbabwe
 - The anthem of the United States, The Star-Spangled Banner shall play in the next sessions of Parliament for a duration of three (3) months, and all members of Parliament must stand each time.
 - The United Kingdom shall accept by treaty to agree to vote with the United States in the General Assembly & Security Council for at least three (3) months.
 - The reopening of diplomatic channels between the United States of America & the United Kingdom.
 - A full and unconditional apology from the Government of the United Kingdom to Principal Deputy Secretary of State JaskMENfield for attempting to sway and/or interfere in the democratic process of the Congress of the United States.
-

The terms that we have provided to the British government are beyond reasonable, and the United States, her armed forces, her government, and her people remain ready to take up arms and fight to preserve democracy, freedom, and liberty on the international stage, in spite of the efforts made against these fundamental principles by the United Kingdom. And the executive will in due time recommend that all citizens of the United States who shall have remained loyal thereto throughout the rebellion, shall, upon restoration of peace, lawfully abide by such laws as proclaimed by the Congress of the United States in these times of conflict.

IN WITNESS WHEREOF, I have
hereunto set my hand, and
caused the seal of the United
States to be affixed.

DONE, at the City of Washington
this sixth day of August, in the
year of our Lord, two thousand
and twenty.
